

Grade 1 to Grade 5

❖ The government is making an effort to implement Single National Curriculum (SNC) throughout the country, at all streams of educational institutions irrespective of public or private sector. The PTBB has been assigned the responsibility of publishing the text books (Grade 1 to 5) conforming to the outlines of SNC that are yet under the process of printing.

At this stage, neither new course books nor the used ones (secondhand) are to be purchased

- The School will take the responsibility to prepare textual material for its students and provide them in soft form till the availability of recommended books on the market.
- However, the used (secondhand) books may be arranged from any known family or some other source.
- For the promotion of such goodwill gesture, the used books of your children may be passed on to other siddeeqeen as well.
- Children must be taught that books are to be always valued whether new or old ones.
